PROFESSIONAL SUMMARY

Aspiring Data Scientist with a specialized focus on Machine Learning (ML), Deep Learning (DL), and Natural Language Processing (NLP). Adept at architecting scalable models and leveraging Prompt Engineering to optimize system performance and intelligence. Committed to bridging the gap between complex neural architectures and efficient, real-world deployment through advanced technical mastery

PROFESSIONAL EXPERIENCE

AI & ML Intern | SINRO ROBOTICS, Kochi | Duration: 2 weeks - **23/07/25**

- Gained hands-on experience in machine learning and AI concepts.
- Implemented supervised ML models such as Linear Regression and KNN on sample datasets
- Learned to use Python libraries such as pandas and NumPy for data processing.
- Gained practical exposure to real-world AI/ML applications in robotics

EDUCATION

Bachelor of Computer Applications (BCA) SKCMS, Kuruppampady (MG University) **March 2022 - March 2025**

Higher Secondary (Computer Science) MKHSS Vengoor **March 2020 - March 2022**

PROJECTS

Fake News Detection using NLP - [Link](#) | Python, NLP

- Built an NLP model on 80K+ news articles using tokenization, stopword removal, lemmatization.
- Achieved 80% accuracy with strong precision and recall in identifying fake and real news articles.

Semiconductor Wafer Defect Classification - [Link](#) | Python, Machine Learning

- Developed a machine learning model to classify and detect defects in semiconductor wafers.
- Achieved 96% defect classification accuracy by deploying an optimized Random Forest model, outperforming evaluated KNN, SVC, Decision Tree, Naive Bayes, and AdaBoost algorithms.

Auto Hub (Vehicle Booking Platform) | Python, Django

- Developed a web-based platform designed to help users quickly find nearby autos for trips.
- Implemented user authentication, enabling customers to create profiles and book autos easily.
- Powered the backend of the platform using Django, ensuring efficient management of data and smooth operation.

College Magazine CMS | PHP, MySQL, HTML

- Developed a web-based platform for St. Kuriakose College to showcase various articles, news, and events.
- Built a digital version of the college magazine using PHP and HTML, making it accessible to students, faculty, and staff.

CERTIFICATIONS & TRAINING

NSDC Data Science and Artificial Intelligence | AVODHA, Completed: **August 2025 - February 2026**

- Gained in-depth practical knowledge in data manipulation, machine learning algorithms, and AI development.

TECHNICAL SKILLS

Data Science & AI: Machine Learning (ML), Artificial Intelligence (AI), Deep Learning (DL), Natural Language Processing (NLP), Prompt Engineering

Programming Languages: C, C++, SQL, PHP, Python, HTML, GDScript.

Libraries & Frameworks: Pandas, NumPy, TensorFlow, Keras, scikit-learn, NLTK, Seaborn, Matplotlib.

Tools & Platforms: Power BI, Google Sheet, Excel, Google Colab, Visual Studio Code, GitHub, Godot, Replit, AI Coding Assistants.

Languages: English, Malayalam.
